Satisfy Professional's Needs

Smooth cutting similar to
that of a hand pruner.

Provided that Ø15mm grapevines
are cut:

71,000
(with two BL1850)

Powered by two
18V Li-ion
batteries in series

Smooth cutting similar to that of a hand pruner

- Blade can be interlocked with the trigger, providing smooth blade movement similar to that of a hand pruner.

Extra-sharp forged blade with made-in-Japan quality

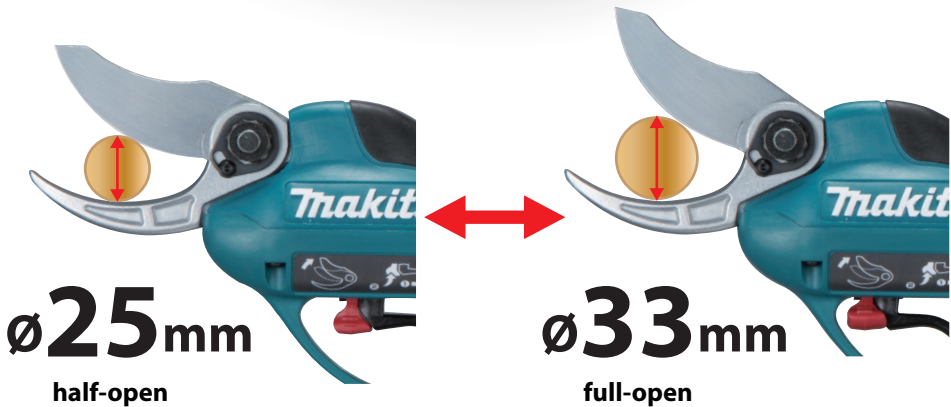

- Smooth and fine cutting thanks to the followings:
- Upper blade specially formed for less cutting resistance
 - Sharp edges
 - Higher blade strength obtained by using a special material for pruning scissors

Lightweight
0.8kg

Blade opening adjustment

- Blade opening is adjustable in 2 stages according to the size of branches.
- When cutting slender branches, half-open cutting can increase work efficiency and runtime performance.
- High cutting speed provides smooth operation without any stress.

Comfortable backpack harness

- Compact and maneuverable for use in tight spaces
- Fits your body well even when you change posture
- The cord to the shear body can be routed through either left or right side.

Switch box

- Can be worn on the waist belt or shoulder belt with the clip on the back, making it easy to:
- turn on/off Main switch.
 - check for error indication (overload, overheating, battery capacity warning, etc.) shown by two LEDs

Controller box

Two batteries and Controller can be stored in the backpack.
